[Image of Moisture Damage]

Somebody waterproofed it already, right?

Probably not. Moisture is a major problem for homes in the Mid-Atlantic, and **most of them aren't built to withstand it.** Moisture is a constant threat to a healthy environment and the structural integrity of a house, and yours may be vulnerable.

You deserve the benefits of a home that defends itself against moisture.

Live in a Healthy Home

Air circulates throughout your house, and if one part of it is compromised by mildew and mold, everything is. You can stay safe and prevent health issues in the home.

Gain Peace of Mind

Without expert waterproofing, every home in the Mid-Atlantic has a clock that's counting down to a structural failure. When the next big rain comes, you'll be prepared.

Enjoy Your Entire House

Once it's healthy and dry, you can reclaim unused parts of your home like the basement and increase the value of your home by restoring and remodeling it.

Schedule a Free Inspection

We know what a relentless threat moisture is to your home,

Reclaim Unused Space In Your Home!

Too many remodeling projects happen **BEFORE** a home is properly waterproofed, which leads to big problems down the road. However, once you've created a dry, healthy environment, you'll be able to increase the value of your home. After waterproofing, you can turn unused spaces like your basement into:

- A Recreation Room
- An Exercise Room
- The Office You Hoped For
- Space for the Kids to Play
- A Much-Needed Bedroom
- And More!

Our Covid-19 Precautions

- In accordance with Social Distancing, we will **not** be shaking your hand.
- Our inspectors and crew will wear respiratory masks while working in your home.
- Fosters 40-80 disinfectant will be applied at the end of every work day on every surface we have come in contact with. (*Fosters 40-80 is trusted in hospitals and other institutional and industrial facilities.*)
- As we always have, we will set up containment and negative air pressure when possible for the work area. Due to our line of work dust is still to be expected.
- Value Dry will continue to closely monitor guidance from the World Health Organization and the Centers for Disease Control & Prevention to keep our customers and employees safe.

Value Dry recognizes that these are difficult & difficult times for us all, but by working together we will all get through this, and we will keep your home healthy and dry!
