✓ **Proactive Care from a True Partner**

Who's looking out for you?

Most insurance companies sell policies without the partnership, which leaves you on your own to find answers and advocate for your best interests. It's not unusual for policy holders to...

- Not know who their agent is.
- Struggle to find help when they need it.
- Pay too much for coverage.
- Or worse, find out they're missing the coverage they need.

You deserve **more** than the "next available" person on the phone.

Personal attention from a trusted partner transforms your experience with insurance.

Ryan went above and beyond. He stayed in contact through out the day to make sure the changes were completed, he dropped off the documents at Davids shop when they were completed. Thanks again for having the right people for the job!" — Tina Dolan	★★★★★ "Saved Us Hundreds" "Cindy Dotson saved us hundreds of dollars on our business policies. In addition, each year she looks for the best price for my company. Last year she saved us addition money by going the extra mile. If I ever have any questions she is more then happy to help and gets back to me within the hour. The audit process is also easier. Highly recommend her!" — Julia Theisen	★★★★★ "Saved Money, Better Coverage" "My fiancé and I dealt with Ryan Bastian during our search for insurance. We were in the middle of closing on our home and needed home insurance stat! He was so incredibly professional and handled us with much care. He was quick and efficient in searching for the best deal! During his search, he also found auto insurance quotes that not only saved us money, but offered better insurance than your current auto insurance at that time. He was by far one of the BEST that I've had the pleasure in working with. Highly recommend him!" — Amber Gorman
